#### **DETAILED ACTION**

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 2617.

#### ***Double Patenting***

2. Claims 1-24 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,705,916. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims in the continuation application are broader than the claims in the patent. Broad claims in the continuation are rejected as obvious double patent over previously patent narrow claims. For example, claim 1 of the present invention is the same as claim 1 of the patent except that "receiving, from a calling party, a destination number assigned to the called party's wireless communication unit" limitation was not recited. Therefore, claim 1 is broader than claim 1 of the patent.
